PROFESSIONAL EXPERIENCE

Cheshire Police, Winsford

Data Management Assistant, 8/2016 – Present

Serve as a proactive part of the team, managing, storing, and distributing highly sensitive technical files. Ensure storage and security of the sensitive data and confidential technical material. Build and maintain long-term professional relationships with third party offsite storage providers. Manage sensitive digitally recording interviews with stakeholders within courts, legal entities, state managed bodies, and solicitors in line with data protection legislation.

Key Accomplishments:

- Recorded and updated 722 records to reflect correct offence for retention and future searches.
- Successfully located 100+ unaccounted for items and returned for storage and retention.
- Examined 800 media boxes prior to destruction to split serious crimes from volume crime.
- Slashed security incidents by updating metadata and forwarded information to information commissioner's office.

Asda, Winsford

Sales Adviser, 11/2013 – 7/2016

Supported ample amount customers in shopping, educating them about product features and recommending products following their requirements. Developed and strengthened long-term professional relationships with all customers for repeat business. Supervised daily stock levels, ensured enough products were consistently available for the consumers and regularly checked and updated stock prices to ensure clarification at the front end for all consumers.

Key Accomplishments:

- Rearranged 15 aisles within strict time frames (8pm-9am) to prepared plans for store reinvention.
- Consistently met deadlines and targets ready for opportunity every day.
- Accomplished customer satisfaction to a high level by greeting customers and ensuring their needs were met.
